

6 February 2002

Dear Isaac,

What I can do in return is to give the follow information: species that should be in because they are referred to it in literature or names that should be changed according to recent publications (I can not give you a full list of references where it is found, many are in Guerrero & Koponen, 2000 or in revisions (e. G. Aphidiinae see the books by stary), but you may refer to it as Fauna Europaea project.

New species:

- Agathidinae: *Bassus conspicuus* (Wesmael, 1837)
- Alysiinae: *Dinotrema ultimum* (Fischer, 1970); *Grandia cynaraphila* (Ricello, 1929)
- Aphidiinae: *Praon volucre* (Haliday, 1833); *Ephedrus niger* (Gautier, Bonnamour & Gaumont, 1929); *Aphidius hieraciomm* Stary, 1962; *A. Funebns* Mackauer, 1961; *Monoctonia pistyaciaecola* Stary, 1962; *Lysiphlebus testaceipes* Cresson, 1880
- Blacinae: *Blacus exilis* (Nees, 1812); *B. nixonii* Haeselbarth, 1973
- Braconinae: *Pigeria piger* (Wesmael, 1838); *Bracon brevicornis* (Wesmael, 1838); *Cyanopterus flavator* (Fabricius, 1793)
- Cheloninae: *Phanerotoma semenowi* Kokujev, 1900
- Doryctinae: *Pareucorystes varinervis* Tobias, 1961; *Ontsira imperator* (Haliday, 1836); *Spathius depressus* Hedqvist, 1976
- Euphorinae: *Allurus lituratus* (Haliday, 1835); *Meteorus cespitator* (Thunberg, 1822); *Dinocampus coccinellae* (Schränk, 1802); *Peristenus pallipes* (Curtis, 1833); *Perilitus* ("Microctonus") *aethiopoulos* (Loan, 1975)
- Microgastrinae: *Apanfeles bmnisfigma* Abdinbekova, 1969 (= *A. sotades* Nixon, 1976); *Diolcogaster claritibia* Papp, 1959 (see Papp, 1981)
- Opiinae: *Opius pendulus* (Haliday, 1836); *Phaedrotoma salimbassai* (Fischer, 1992); *P. baezodedicafus* Fischer, 2001.

Names to be corrected: (and best to my name as "van Achtenberg" and Nees von Esenbeck as "Nees"),

- *Aphidius picipes* is invalid name = *A. avenae* Haliday, 1833

- *Blacus intercessor* should be ***Bracon intercessor*** Nees, 1834
- *Blacus pectoralis* should be ***Bracon pectoralis*** (Wesmael, 1834)
- ***Chelonus annulatus*** (Nees, 1816)
- ***Chelonus inaritus*** (Linnaeus, 1767)
- ***Chelonus occulator*** (Fabncius, 1775)
- ***Chrysopophthorus hungaricus*** (Zilahi-Kiss, 1927)
- ***Cofesia cuprea*** (Lyle, 1925)
- *Eurytenes vockerothi* = ***E. blantoni*** (Fischer, 1964) (see Marsh, 1974)
- *Habrobracon hebetor* = ***Bracon hebetor***
- *Habrobracon unnator* = ***Bracon urinator*** (Fabncius, 1798)
- *Microchelonus pilicomis* = ***Chelonus pilicomis***
- *Microgaster globatus* auctt. (not L!) = ***M. rufipes*** Nees, 1834
- *M. meridiana* aucct. + *M. tibialis* Nees, 1834 = ***M. messoria*** (Haliday, 1834)
- ***Microplitis areatus*** Papp, 1979
- *Opius longicomis* auctt. = ***O. caudifer*** Fischer, 1958 (see Fischer, 1997)
- *Opius pappianus* = ***O. graecus*** Papp, 1982
- *Phanerotoma dentata* auctt. = ***P. tritoma*** (Marshall, 1898)
- *Pseudomesocrina venatrix* = ***Mesocrina indagatrix*** Foerster, 1862
- ***Spathius moderabilis*** (Wilkinson, 1931)
- *Synaldis distracta* = ***Dinotrema distractum***
- *Synaldis laccessiva* = ***Dinotrema laccessivum***
- *Synaldis maxima* = ***Dinotrema concinnum*** (Haliday, 1838), see Konig, 1972
- *Triaspis obscurellus* = ***T. obscurella***
- *Triaspis pallipes* = ***T. p.*** (Nees, 1816)
- *Trioxys pannonicus* = ***T. p.*** Stary, 1960 (not Strary)
